

Valley Trough

Aluminium Valley Troughs are an excellent alternative to lead, more cost effective, tougher, and more resistant to accidental damage. The use of Aluminium Valley Troughs have significantly reduced installation time over traditional methods.

- Cost effective alternative to Lead
- Lightweight and durable
- Easy to work with
- Will not warp, crack or discolour
- Suitable for slate and tiled roofs

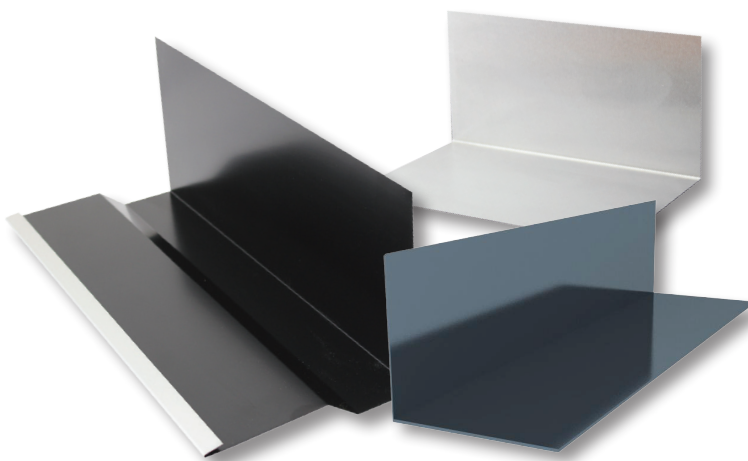

Aluminium Soaker

Aluminium soakers are for use when forming a pitched roof against an existing wall.

Pre-fabricated to a 90 degree angle, soakers are inserted between successive courses to make a waterproof joint.

A lightweight and durable alternative to lead.

Flash - Alu Lead Replacement

Flash is a self-adhesive aluminium flashing for use as a replacement for traditional lead sheet in all roofing and waterproofing applications. Rolls are 5m in Length.

Benefits:

- Cost Effective
- Easily Installed
- Zero Theft
- Versatile
- Non Toxic
